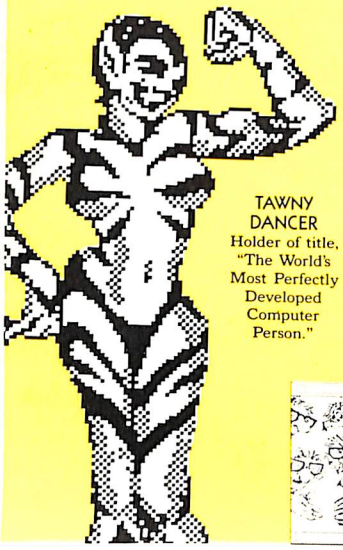
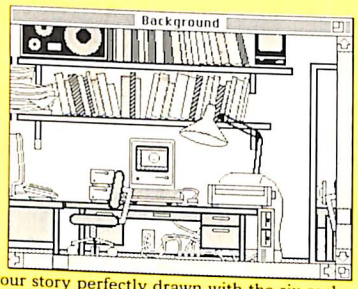
I Can Make YOU a Great Comic Artist in No Time!



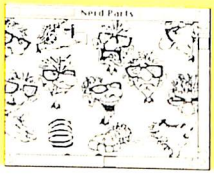
TAWNY DANCER
Holder of title, "The World's Most Perfectly Developed Computer Person."

PEOPLE used to laugh at how I looked when drawn by hand. I was ashamed to be seen in even a panel, much less have a thought balloon. THEN I discovered my comic-building system. *"The Comic Strip Factory!"* It made me such a *complete* specimen of Macintosh graphics that I hold the title, "The World's Most Perfectly Developed Computer Person."



What's My Secret?

When you look at your Mac and see your story perfectly drawn with the six socko characters, terrific backgrounds and all the neat custom features–then you'll be astonished at how fast and easy *"CSF"* GETS RESULTS! Create great comics in the privacy of your own room–Cut, Copy and Paste! Invert, Duplicate, Flip, Rotate, Merge! Make Silhouettes! Add Balloon Pointers! Group and Ungroup makes it real easy to assemble characters and move them about, make them overlap panels and edit them in the fantastic two-layer Edit Bits mode! Just watch as you move in the extra-wide backgrounds, other fonts and stuff from MacPaint formatted clip-art packages, then save the completed pages as MacPaint files and "share" them with the friends (tell them how easy it was).



Thousands are becoming lucky comic authors–my way. With *"CSF"* you simply utilize the dormant comic-power in your own brain and watch it grow into humor, dripping with greatness!

The Comic Strip Factory:

the tool for making comics!

- Nearly a **megabyte** of comic **art** and **fonts**! Assemble characters **easily** from **predrawn parts**! Just **click** and **copy**!
- Includes **PartMaker II**: converts MacPaint **clip art** files to **comic parts**!
- **Rotate, flip,** and **invert! Group** and **ungroup! Magnify** and **edit** at the **pixel level**!
- Custom **panel shaping tools** allow **diagonal** and **curved** edges! **Dialog balloons** made to **fit your text! Background** loaded **quickly** from any **MacPaint file**!
- Features **Icon Bar** for **fast access** to most **frequently used commands**!
- *Lots more!*

Runs on a Macintosh with 512K or more memory. 100% hard disk compatible: not copy protected!
